Tomorrow is Holiday

Just now

This is to inform all students of this course that tomorrow is holiday. So no class

The screenshot displays a course management dashboard. On the left, a sidebar contains a 'Create course' button and a list of navigation items: 'Enrolled Courses', 'Achievements', 'My Quizzes', 'My Assignments', 'Notes & Reviews', 'Instructor Controls', 'Manage Courses', 'Manage Quizzes', 'Manage Assignments', 'Manage Students', 'Manage Questions', 'Question Answers', and 'Manage Reports' (with a 'Beta' tag). The main area shows a course overview for 'Software training' with a 'Show More' link. Below this is a navigation bar with tabs: 'Admin', 'Activity', 'Submissions', 'Announcements & News', 'Reviews', 'Questions/Answers' (highlighted with a red arrow), 'Statistics', and 'Edit Course'. A filter bar shows 'Pending' (selected) and 'Answered' tabs, a search input 'Type to search..', and a 'Recency' dropdown. The main content area features a question card for 'Course Outline' (unit name) with a duration of '3 minutes, 44 seconds' and the text 'Is this unit is important?'. To the right of the card is a 'Software training reloaded' (course name) label. At the bottom of the card are two buttons: 'Answer Question' and 'Mark Answered'.

Answering Questions

While going through the units, users(students) enrolled in that course can ask questions if they have any doubt and then continue with their course. At the end of the day, when instructor will check this tab, he will find the Questions raised by students while checking the course. From here, instructors can answer student's doubts
